## Elektra BP COMBI BOILER - for larger properties

IMQ TESTED

EQUIPMENT COMPLIANT CE DIRECTIVE 2006/42  
- IEC 60335-2-21:2012 with IEC 60335-1:2010 with  
EN 60335-2-21:2003+A1:2005+A2:2008 - EN 60335-  
1:2012 - EN 62233:2008.

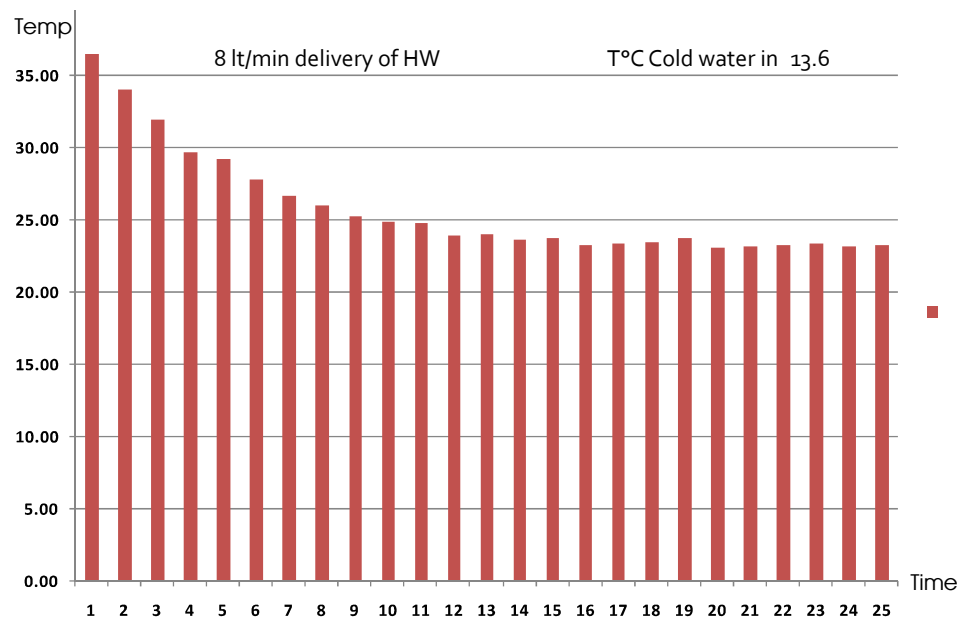

- Elektra, designed and produced in Italy.
- Clean and safe form of heating and hot water solution.
- Continuous hot water for its size.
- 240v single phase. \*Uses 50-60Amps \* Use 10mm cable.
- Completely silent due to Triac Based Technology.
- Modulates from 2kw – 12kw. \*Digitally displayed temperatures.
- 37.5 L glass lined, insulated steel cylinder with inspection flange, fitted with magnesium anode, mounted within insulated boiler casing.
- Can be used with radiators or under floor heating.
- Anti Legionella function. The temperature of the cylinder is automatically raised to 65°C in order to eliminate Legionella bacteria. Simply connect flow and return from heating circuit and cold supply for HW.
- All components for normal function of the combi boiler are included.
- Hot water limited to 65°C \*Central heating limited to 75°C.
- Economical (see blue chart ) installer and user friendly.
- 2 Years warranty (extendable).

## Elektra C

### COMBI BOILER- for small flats

- 12kw Heating & Hotwater
- 2 x 6 Kw Immersion heaters
- 10mm cable supply
- Suitable 1 bathroom property
- Built in pump (5m head )
- 10 lt expansion vessel
- 240v single phase.
- Uses 50-60Amps

## Elektra N

### HEATING ONLY

- 12kw Heating Only
- 2 x 6 Kw Immersion heaters
- 10mm cable supply
- Digitally controlled temperature
- 240v single phase.
- Uses 50-60Amps

This boiler replaces system boilers. It has built in pump, expansion vessel, all the controls necessary for heating only boilers.

Effiecent, reliable, economical, modulating electronically controlled.

## Running costs of Comparison between Gas and Electric central Heating

	Gas	Electric
Efficiency	?	100%
Installation flexibility	Limited	Unlimited
Flue / ventilation	Yes	No
Carbon monoxide issues	Yes	No
Gas safe certification	Yes	No
Condensate issues	Yes	No
Blockages within the gas boiler	Yes	No
Yearly Service	Yes	No
Parts list	Vast	Short
Diagnostics	Qualified Person	Lay person

		Gas Heating		Electric Heating	
	Home Insulation	Annum	Month	Annum	Month
	Good	£922.91	£76.91	£921.59	£76.80
2 bed	Average	£1,218.82	£101.57	£1,234.03	£102.84
	Good	£1,127.27	£93.94	£1,139.45	£94.95
3 bed	Average	£1,614.33	£134.53	£1,677.66	£139.80
	Good	£1,471.21	£122.60	£1,521.83	£126.82
4 bed	Average	£2,088.15	£174.01	£2,295.71	£191.31
	Good	£1,884.42	£157.03	£2,050.46	£170.87
5 bed	Average	£2,676.16	£223.01	£2,726.37	£227.20

\*Used, 0.04p kwh for gas, 0.13 kwh electricity, for the above figures
