

## COMBI BOILER WITH CYLINDER

12 KW WALL HUNG ELECTRIC • INSTANTANEOUS AND CONTINUOUS HOT WATER

### EK .BPL

### EK .BPC

H:- 875  
W:- 660  
D:- 300

H:- 875  
W:- 450  
D:- 430

Both boilers have an in built 37.5ltr glass lined cylinder where ceramic Immersion heater is held in a dry pocket.(No contact with water )

### COMFORT MODE

With 9 ltr of stored hot water for central heating, this gives you a total of 46.5ltr of stored hot water at 65 oC.

Instantaneous hot water, up to 13 ltr/min.  
Continuous hot water at 8ltr/min.

Once the hot water tap is opened, 46.5 ltr is at your disposal with immediate back up of 12kw energy to give you continuous hot water.

### ECO MODE

37.5 litres of stored hot water at your disposal enough for 5-8 mins of showering, with re-generation of hot water in 30mins.
